

Compliant, Configurable Payment Solutions for every Department.

Taxes, Court Fees, Fines & Misc. Services

All payments processed on a single platform

GovTeller has been providing Innovative Payment Solutions to municipalities, counties, states and other governmental agencies since 2004. Our cloud-based platform provides secure payment solutions and integration services, allowing you to connect with the management system of your choice.

Government offices faced with the challenge of collecting payments across many different locations risk a disjointed and cumbersome experience for administrators to have a holistic view of their revenue collections.

What Can GovTeller Do For You?

Flex-Fee Programs

Highly flexible solutions either supporting Service fee, Convenience Fee and No-fee transaction models, or a combination of both

Multiple Payment Methods

GovTeller has your office covered when it comes to payments, whether via API, Card Present, Online, IVR or other Custom Payment Options

Integrated Solutions

GovTeller's cloud-based platform is capable of integrating both your in-person and online transactions into your fund management software.

Master Data Management

Have multiple bank accounts, departments or locations? No problem. Via single sign-on (SSO) you can easily switch between different departments, locations and reporting.
